A day outdoors. A team transformed.

Fast, Competitive, Full on

Escape The Country

Your adventure day kicks off in the countryside with high-energy missions that push teams to their limits. The group splits into two squads: one begins with precision archery, hitting themed perimeter targets, while the other starts in the Challenge Zone, testing teamwork, communication, and problem-solving. Midway through the session, the squads swap activities so everyone gets to experience both archery and the Challenge Zone.

Teams then reunite for either an action-packed laser tag battle or a raft-building challenge.

The day culminates in a thrilling heli-vac escape mission: teams use maps to locate vital equipment, rescue a live casualty, explore underground caves, and race to extract them safely before the opposition.

This ultimate team-building experience tests a wide range of skills:

Challenge Zone: problem-solving and teamwork

Archery: focus and precision under pressure

Laser Tag / Raft Building: strategy and coordination

Heli-Vac Mission: navigation and rescue

Orienteering: map reading and route planning

First Aid & Bushcraft: practical survival and lifesaving skills
